Women's Secrets

There is one man in the United States who has perhaps heard more women's secrets than any other man or woman in the country. These secrets are not secrets of guilt or shame, but the secrets of suffering, and they have been confided to Dr. V. Pierce in the hope and expectation of advice and help. That few of these women have been disappointed in their expectations is proved by the fact that ninety-eight per cent. of all women treated by Dr. Pierce have been absolutely and altogether cured. Such a record would be remarkable if the cases treated were numbered by hundreds only. But when that record applies to the treatment of more than half-a- million women, in a practice of over 40 years, it is phenomenal,

and entitles Dr. Pierce to the gratitude accorded him by women, as the first of specialists in the treatment of women's diseases. Every sick woman may consult Dr. Pierce by letter, absolutely without harge. All replies are mailed, sealed in perfectly plain envelopes, without may printing or advertising whatever, upon them. Write without fear as without fee, to World's Dispensary Medical Association, Dr. R. V. Pierce, Prest.,

Sick Women Well,

CONCERN

To Come Before National Wool Growers Association at Pocatello

Pocatello, Ida., Jan. 13 .- Questions of great concern to the sheep raisers of the United States, and especially of the western range states, will arise at the three-day convention of the National Woolgrowers' association, which will begin here at 2 o'clock tomorrow

The storage warehouse plan, which is, in brief, to place the bulk of the wool crop in the hands of a co-operative selling agency, to hold for what is considered a fair price, meanwhile horrowing money on the stored product, will be the principal subject at issue. A committee has been busy for several months securing pledges of wool and arrangements have, been made to lease a warehouse in Chicago or some other center as soon as the required 25,000,000 pounds of wool are guaranteed.

It is not thought that much opposttion will develop, but the details of the plan may be criticised and its feasibility questioned.

Government regulations in relation grazing on forest reserves will undoubtedly be attacked. It was the known attitude of the association on this point that prompted Chief Forester Gifford Pinchot to decline an invitation to the meeting in a sharp note which further strained relations between the forestry department and the wool men.

In his letter Mr. Pinchot advised ine secretary of the association that he did not care to attend the convention until it should show by its action that it was prepared to view the grazing question in a more liberal spirit.

While all the delegates will be in favor of a tariff on wool there may be a debate as to whether the present duty is sufficient. Utah wool growers and perhaps others, have adopted resolutions, asking that the present duty be increased. In other quarters the prevailing tariff is regarded as ample or the needs of the industry.

At the opening session of the con-vention addresses of welcome will be elivered by Gov. Brady of Idaho and Mayor Loux of Pocatello. Fred W. Gooding, president of the association, will make his annual address.

The program of the meeting covers a wide range and topics and the speakers will include irrigation experts, government experts, buyers and manufecturers of woll and others having indirectly to do with wool growing. The election of officiers and selection of the next place of meeting will take place just before adjournment on Saturday afternoon.

FERNS A GOOD PRESERVATIVE. Best Material in Which Feedstuffs Can Be Packed.

Fern leaves excel all other agents for packing articles of food, according to Consul General Guenther at Frankfort. He has forwarded an article to the state department, of which the

following is a summary: "People who have lived in England know that the English have used forn leaves successfully for many years. Valuable fruit, frosh butter, etc., are no longer seen in the English markets packed in grape-vine leaves, but almost always in fresh fern leaves,

which keep the articles excellently. "This is done where grape-vine leaves are to be had in abundance. Every one posted well in botany knows the high preservative power of fern leaves with reference to vegetable and animal substances.

"On the Isle of Man herrings are packed in ferns and arrive on the market in as fresh a condition as when they were shipped. Potatoes packed in ferns keep many months longer than others packed only in

"Experiments made with both straw and fern leaves in the same cellar showed surprising results in favor of ferns. While the potatoes packed in straw mostly showed signs of retting in the spring, those in ferns were as fresh as if they had just been dug. Vresh meat is also well preserved by fern leaves.

"It would seem as if the preservative qualities of fern leaves are due to their high percentage of salt. No larvae, maggots, etc., approach ferns, as the strong odor keeps them away."

Was Taking No Chances.

Many children have had many and varied opinions of Santa Claus, but it remained for Jimmie, the five-year-old son of a physician, to suspect his very honesty.

His mother was telling about it the other day when the conversation happened to drift to the subject of Christmas. It happened last Christmas. A day or two before the expected visit of Santa Claus the boy's toys were all missing. The mother, accustomed to having to pick them up 60 times a day, marveled that her son should so suddenly take it upon himself to be tidy. She marveled and wondered until she finally asked him what had become of the

toys. "I hid them," he said, confidingly, "Hid them?" asked his mother. Why did you hide them?"

He looked very solemn for a ment before he replied: "Well, mamma, I didn't know but maybe Santy would want to give them

with but little suffering. Book containing information of value to all expectant mothers mailed free, BRADFIELD REGULATOR OO. to some poor little boy."

AUTHORITY OF CONGRESS DISCUSSED

Washington, Jan. 13.—The authority of congress to direct heads of executive departments to send to the senate or house information in their possession was the subject of an extended speech in the senate today by Senator Bacon of Georgia. Mr. Bacon took the broad view that congress has absolute power to demand from heads of departments any information within their possession and even to require them to give reasons for their action or them to give reasons for their action or non-action on any matter coming before them.

Senator Lodge questioned the power of congress to demand papers on file in diplomatic matters and insisted upon the right of the president to ex-ercise discretion in such matters. Senator Hale declared that he did not believe that the president intended to state in his message to congress that he would not furnish documents and information, but merely that he declined to permit a cabinet officer to furnish reasons for the action he had taken. Senators Fulton, Teller, Clapp, Money and others joined in the de-bate, all upholding the power of the

At 3.45 p. m. the senate adjourned.

NOTICE TO WATER USERS.

State Engineer's Office, Salt Lake City, Utah, July 23, 1908. Notice is hereby given that the Ogden Water Works company, by its manager, C. H. Kircher, whose post office address is Ogden, Utah, hav made application in accordance with the requirements of Chapter 108, Ses sion Laws of Utah, 1905, as amended. by the Session Laws of Utah, 1907, to appropriate ten (10) cubic-feet per second of water from springs in Taylor's Canyon, Weber County, Utah. Part of said water will be diverted from a spring which is situated at "point of diversion" No. 1, which bears north 62 degrees 48 minutes west 211.3 feet distant from the east quar-ter corner of Section 35, Township 6 north, Range 1 west, Salt Lake base and meridian. Part of said water will be diverted from a spring which is situated at "point of diversion" No. | ration and exportation of hashish: 2, which bears north 71 degrees 3 min | "Hashish, that strange drug which utes east 1540 feet distant from the land corner above described. Part of said water will be diverted from a spring which is situated at "point of diversion" No. 3, which is 3,496.6 feet the above described corner. Part of said water will be collected from a spring which is situated at a point bearing north 43 degrees 21 minutes eac: 2820.6 feet distant from the point first above described; also from nu-merous small springs adjacent thereto and conveyed to "point of diversion" No. 4, which bears north 44 degrees 44 minutes east 2,583.2 feet distant seeds. from the quarter corner above describwhere it will be diverted. "point of diversion" No. 5, which bears north 51 degrees 33 minutes east 2,427.7 feet distant from the land corner above described, a part of said water will be collected from small springs situated in a side canyon which enters the main canyon at a point northeast of the "point of diversion" last above described. At "point of di version" No. 6, which bears south 85 degrees 53 minutes east 5233.8 feet distant from the land corner above de-scribed, the water which flows from a spring situated about 100 feet east of said "point of diversion" will be divert-ed. The remainder of the water applied for will be diverted at "point of diversion" No. 7, which bears south 69 degrees 7 minutes east 3,464.2 feet distant from the land corner above lescribed, at which point the water from numerous small springs situated

canyon is to be collected and diverted. The water from the various sources above described will be collected and conveyed to a point near the west line of Section 36, township 6 north, Range 1 west, Salt Lake base and meridian, where it will be conveyed for about 20,000 feet by means of a pipe line to the reservoir of the applicant situated east of Ogden City between 22nd and 23rd streets and from there it will be distributed during the period from January 1 to December 31. inclusive, of each year, by means of the present system of water works operated by the applicant and to be hereafter constructed and there used for municipal purposes. This cation is designated in the State En-

in two canyons which form the main

gineer's office as No. 1709. All protests against the granting of said application, stating the reasons therefor must be made by affidavit in duplicate and filed in this office withthirity (30) days after the completion of the publication of this notice. CALEB TANNER, State Engineer.

Robber Holds Up Public House; Makes Desperate Break for Liberty

Omaha, Neb., Jan. 13.-An unknown man entered the public house of Anna Wilson at Ninth and Douglas streets, at 1 o'clock this morning, and held up the place. A girl, whose name has senate in the matter under considera- not been learned, resisted and was shot. The robber then started for the door, where he was met by Patrolman L. A. Smith, into whose body he fired a bullet. The officer died on the spot. The woman is not fatally wounded.

A big squad of emergency officers followed the robber to the Missouri river, where they lost track of him for a time. An hour later, however, they came upon a man near Douglas street, Missouri river bridge and, on his failure to surrender, fired upon He was then captured rushed to the emergency hospital. He has not yet been identified as the rob-

DRUG DEADLY TO ITS USERS. Egyptian Authorities Seek to Prevent

Importation of Hashish. Consul Edward I. Nathan of Patras, Greece, writes about the Greek prepa-"Hashish, that strange drug which has given our language its word 'assassin'-a man so frenzied by the drug that he accomplishes murder-is used by the Persians. Turks and south 61 degrees 51 minutes east from Egyptians in a manner akin to the use of oplum by the Chinese. It is the product of a plant grown in large quantities in the Peloponnesus (southern Greece) in the district about Tripolitza. The plant grows to a height of about four feet and its branches are thickly covered with small leaves and studded with tiny

> "The entire plant, stalk and branches, is cut within a few inches of the root and laid out in the sun to dry. The branches are then rubbed to separate the seeds and these in turn are ground into a fine powder, which constitutes the drug. The drug has the power of inducing sleep and producing pleasant and fantastic Continued use of hashish dreams. renders its devotees wild and reckless and results in a complete wreck of their mental and physical constitution.

> "For this reason the Egyptian government has prohibited the importation of the drug and recently entered into a convention with Greece to prehashish are very numerous. The drug is practically never used in Greece, but is now exported to the various ports in England, Austria, France, and Italy, and from there much, no doubt, ultimately finds its way to

> CONDUCTOR KNEW THE SIGNS. Experience Had Taught Him Why the Crowd Was Out.

"I wonder what it is to-day, corsets or kimonos." mused the conductor. "How do you know it is either?" asked a passenger. "Because there are so many stout

people coming down town shopping." was the reply. "It may not be either corsets or kimonos that are bringing them, but it is something for fat folk to wear. You can't fool me on that. I've been conductor on this line too long not to know the signs. The stout women are out in shoals to-day, which means that there has been a bargain sale in extra large garments advertised. The thin people always take things more calmly when their turn comes. Possibly they think they can get fitted any time. But the heavyweights never miss an opportunity, and the conductor who has learned to put two and two together can tell by the heft of the passengers how the

day's advertisements run." The inquisitive passenger said: That's queer," and opened the morning paper. He turned to the advertisement of the store that stands on the corner, where so many stout people had left the car. A line in heavy type at the top of the page took his

SPECIAL SALE OF DRESSING SACQUES, EXTRA LARGE SIZES. The conductor grinned. "What did tell you?" he said.

Large Sum Uncalled For. There is more than \$250,000 in the treasury of New York city due to former employes of the city, but which has never been called for.

for the coming event, and it is passed without any danger.

No woman can be happy without children; it is her nature to love them as much so as it is the beautiful and pure. The ordeal through which the expectant mother must pass is so full of dread that the thought fills her with apprehension. There is no necessity for the reproduction of life to be either very

painful or dangerous. The use of Mother's Friend prepares the system This

off the track," he retorted.

He only got my Ingersoll. It pays to carry them.-Beau Broadway in New York Telegraph.

MEN WANDER NINE DAYS IN DEATH VALLEY

San Bernardino, Cal., Jan. 13.—A special from Ballarat states that three of the men lost on the desert in Death Valley, have made their way to that place. One remains unaccounted for and hope of his being alive has been abandoned. The missing man is B. V. A. Williams, a mining man of Rands-burg. The three who arrived at Bal-larat were demented, having wandered for nine days, most of the time without

RECOMMENDATIONS ON STATE INSTITUTIONS

Olympia, Wash., Jan. 13 .- At a joint session of the legislature today, a message from Governor Mead read. The governor recommends the abolition of the board of audit and control, and that the management of state institutions be handled under one head. He also recommended that all fees for the state land office, insurance and secretary of state be paid directly to the state treasurer. A memorial to congress protesting against the proposed reduction in the tariff on lumber was adopted by a strict party vote, the Democrats opposing. The memorials similar to those of Maine, Illinois and Wisconsin, adopting the election of United States

ways and child labor laws. An exceedingly rapid anti-trust bill was introduced in the house, the most stringent anti-corporation measure that has ever been presented in an Oregon legislature. By its provisions trusts of every description are made unlawful and severe penalties attach to violations of the act.

enators by popular vote and favoring

government appropriations for high-

A trust is defined as a combination of capital, skill or acts by two or more persons, firms or corporations. To create or carry out restrictions in trade or commerce; to limit the production or increase or reduce the price of merchandise or any commodity whatever; to prevent competition in the manufacture, sale, purchase or transportation of any com modity and to fix or control prices.

BRIEF POPULARITY FOR ROSES

Favorites of Other Days That Are Now Seldem Seen.

What becomes of the former favorites of the rose tribe? Each has had its day and has reigned right royally in its particular period, says the New York Press. All old New Yorkers must have soft spots in their hearts for the jacqueminot. For many years It was the most popular blossom among rich and poor. A quarter of a century ago the street venders sold hardly anything except the gorgeous red "Jack" roses and the most fashionable florist had to be extremely cautious in trying to push another variety ahead of it. Then came the American beauty, which had a long sway. Bride roses followed in the affections of the people, more on account of their association than be cause of superior beauty. Long before the brides and American beauties and "Jacks" there flourished the Marechal Niel, always the subject of controversy as to whether it was a tea rose or a noisette.

Of a more beautiful vellow than the flower named for the famous marshal of France was the cloth of gold rose. vent its exportation from there to As its name implied, it was a rich golden color. Fully as hand the general jacqueminot, the original name of the "Jack" was the baronne prevost. Another gorgeous rose was the giant of battles. Among the climbers were the queen of the prairie, the Baltimore belle and the ayrshire. A flower loved for its perpetual blossoming was the souvenir de malmaison, finest of the Bourbon roses. The Bengal was another perpetual and an attractive bloom. Even the gigantic cabbage rose, though it became the fashion to laugh at it, had its share of popularity for awhile. Where are the roses of yesteryear?

SHIPS BUILT OF CONCRETE.

Even Reinforced Concrete Armor May Be a Possibility.

Reinforced concrete has actually been employed in shipbuilding. In the first Paris exposition, in 1855, a small boat made of reinforced concrete was exhibited by Lambot. This vessel, which was constructed of wire netting covered with cement, is still affoat and will soon be installed in a technical museum.

In 1896 Gabellini of Rome built an experimental vessel of reinforced concrete, which is still in service on the Tiber and in excellent condition. The same firm has since constructed a large number of concrete bridge pontoons

An Italian engineer has been led by the success of concrete land fortification, as revealed in the Russian-Japanese war, to construct armor plates of reinforced concrete covered with thin plates of steel as a protection against the immediate effects of the impact of

The substitution of reinforced concrete for steel armor on a first-class battle-ship would effect a considerable saving. The practicability of the substitution will be decided by the results of experiments, soon to be made, on the effect of shots on the reinforced concrete plate.-Chicago News.

Worth That Much.

I was standing in front of one of the 'paper from home" stands in Broadway recently, when a seedy gent with a feeble eye stepped up and bought papers from Oshkosh, Kalamazoo and it on. The girl is alive and making Wheeling. My curiosity overcame my manners and I ventured to inquire re garding the purchase. He only slipped rapidly away and I followed, Finally, after a chase of two blocks, he stopped and made a motion of mystery. "Sh-h," he whispered; "are you

confidence man?" "No. I merely want to know why purchase papers from such places?"

"Oh, I do that to throw any confidence men that may be following me

PERUNA EDITORIAL NO. I.

Dr. Hartman is now offering Peruna to the public as a regular pharmaceutical product. It is just as ethical as any compound put up for the medical profession. No straining of medical ethics can find any fault with it. THE PRINCIPAL ACTIVE INGREDIENTS are prominently incorporated in the label on the bottle, that the people may know that the claims made for Peruna have a true justification.

The only departure we shall make from medical ethics in the conduct of Peruna affairs in the future, is the fact that we shall continue to advertise and sell our product TO THE PEOPLE.

If we would agree to sell to doctors only, to advertise for doctors only, then the medical fraternity would be obliged to recognize Peruna as being

entirely within their approval.

BUT WE SHALL NOT DO THIS. We shall continue to offer Peruna to the people. We shall continue to convey to the people our claims for Peruna as a household remedy. We shall continue to supply the people with free literature, teaching them how to use our medicine, teaching them how to avoid disease, teaching them many things

of benefit to the home. We shall continue to do this, whether the medical profession like it or not. We are proposing from this time on to take the public into our confidence. Notwithstanding that some imitators and substitutors will be attempting to put up something which they consider just as good as Peruna, we are going to

draw aside the veil of secreey and allow any one who chooses to know exactly OF WHAT PERUNA IS COMPOSED. This ought to disarm all honest criticism. We expect, however, that crit-

People Who Object to Liquid Medicines Can Now Secure Peruna Tablets.

icism will continue. On some pretext or other those who are envious of the success of Peruna will continue to find fault. But we are determined to give such people no just complaint. PERUNA IS A GREAT MEDICINE, It has become a household word in millions of homes. Our faith in the remedy is stronger than ever. Every year we expect to cover new fields

in foreign lands until the people of all the world are supplied with this valu-

CINES ON THE CONTINENT.

able household remedy,
WE CLAIM PERUNA TO BE A CATARRH REMEDY. Buy a bottle and
try it. If it helps you, be honest and acknowledge that it has helped you. If you want us to we will publish your statement exactly as you furnish it to us. We will add no words, take away no words. If you wish us to we will publish your portrait in connection with it. We will not do this without your

written request, without your entire consent. Peruna has benefited thousands of people afflicted with chronic catarrh, in many phases and locations. At least, that is what the people say to us, through unsolicited testimonials. Many thousand more will reap benefit from Peruna in spite of fabricated slanders to the contrary.

WE GUARANTEE EVERY BOTTLE OF PERUNA TO CONTAIN THE INGREDIENTS PRINTED ON THE LABEL.

We have taken great pains that every testimonial we use should be absolutely true, in the exact language of the testifier.

We have taken great pains that every photograph published should be the photograph of the person whose name it bears, that every word of every testimonial should be authorized by the hand that signed it.

We are determined to beat our opponents by being fairer than they are, by dealing squarer than they dare to. We are determined to meet falsehood with truth, duplicity with candor, insincerity with sincerity. We know that the users of Peruna will appreciate our stand. We believe that the dealers in Peruna will applaud our course. We expect even our op-

ponents will be obliged to acknowledge finally that Peruna is not only an

honest and useful remedy, but one of the GREATEST HOUSEHOLD MEDI-

MISS ELIZABETH HOUMAN, WHO IS SUING STANLEY KETCHEL, THE MIDDLEWEIGHT CHAMPION PRIZE FIGH-TER OF THE WORLD.

Grand Rapids, Mich., Jan. 14.-The declares in July, after he had risen is in trouble. Miss Elizabeth Hou- pion of the world, he broke off the enman of 36 Humboldt street, this city, is suing Stanley Ketchel for damages to the amount of \$10,000. Ketchel was I arrested on a capias as the commencement of the suit. He readily secured bail to the amount of \$10,000 and was | tion, which was brought on by her rerelaesed.

In her affidavit Miss Houman charg es she met Stanley Ketchel in Grand Rapids on January 5, 1908, and that the acquantance soon ripened into a love affair and an engagement resulted. She charges that he promised to marry her January 20 of last year, but later postponed the ceremony until July. On the day set for the wedding Miss Houman charges he left for the west and that while he was there she received letters from him and kept up woman but that is all. Ido not know a correspondence. On June 9 she her, have had no acquaintance with said she went to Milwaukee at the ner, and never became intimate with solicitation of the fighter and remained her in any way. There was no promise there with him two days. Then she or talk of matrimony.'

champion middleweight prize fighter to the pinnacle of fame as the chamgagement without warning and has since refused to associate with her. Miss Houman states that during the

time of her alleged engagement she became and was in a delicate condiliance on the alleged promise of Ketchel to marry her. She states that she fully believed in him and had asked for and gained the consent of her parents to her wedding with the fighter, and that his sudden change of mind has damaged her to theh extent of the amount asked for

When seen by a reporter last night, Ketchel said: "The whole scheme is one of blackmail pure and simple.
